Numb. 3179

THURSDAY, MAY 10, 1744.

Stockholm, April 28.

THIS being his Majesty's Birth Day, he received the Compliments of the Court upon that Occasion. His Majesty enters now into the 69th Year of his Age, and has enjoy'd, ever since he was at Carlesberg, as good Health as he has done these Seven Years, which gives great Satisfaction to the whole Nation. It is said, and perhaps not without Foundation, that a Treaty is on Foot, between this Court and that of Prussia, for securing and augmenting the Dominions possess'd by this Crown in Germany; his Majesty being desirous to make use of his Interest with the Emperor, to facilitate every Method that may effectually turn to the Advantage of such a Project, on which great Expectations are raised here; tho' many of our gravest Politicians are afraid of seeing us engaged in a War in Support of these Pretensions. It is a Point settled, that his Royal Swedish Highness shall go to Carlscroon, in order to meet the Princess of Denmark, as soon as we have Intelligence of her Landing there.

Hamburgh, May 8. According to our last Advices from Moscow, her Imperial Majesty, while at Cremmel, applied herself wholly to her Devotions, and visited every Day some of the Churches; assisting duly at the Offices of the Holy Week, and particularly at that of consecrating the sacred Oil. We have been very curious in finding out the Truth, as to the Countenance shewn to the Marquis de la Chetardie; for which Purpose, some of our ablest Politicians wrote expressly to their Correspondents at the Imperial Court. All that we can learn is, that the Marquis de la Chetardie is as much caress'd, and as well esteemed, as ever; not only by the Czarina and the Ministry, but also by the Foreign Ministers, and the Nobility of Russia: But this is purely owing to his own good Qualities, and to that frank and generous Disposition which makes him universally respected. As the Ambassador of France, he is treated with much Ceremony, and little Confidence; promised an Audience when he shall receive proper Letters Credentials; so that he is thereby prevented from entering on any Negotiation. He is thought to be so sensible of this, and so little pleas'd with the Usage his Court has given him, that it is reported he will speedily lay down his publick Character, in order to enter into the Service of the Empress of Russia.

Berlin, May 5. His Majesty endeavours, all he can, to avoid being drawn into any Share in the War that is broke out between France and England; and, with this View, has directed his Ministers at the Courts of Franckfort and Versailles, to expostulate warmly on the Project of attacking his Britannick Majesty, as Elector of Hanover, which both of those Courts have denied; and his most Christian Majesty has declared, that his Troops shall not enter Germany, in case the Forces of the Queen of Hungary do not attempt to pass the Rhine; but, if they should, he hopes our King will consider them as Aggressors, and not conceive any Enterprize on the Side of the French; which such a Conduct may render necessary, as falling within the Terms of the Treaty of Breslaw, or of the defensive Alliance, and mutual Guaranty, into which our Monarch has enter'd with his Britannick Majesty. But how far this evasive and inexplicit Declaration will weigh with his Majesty, Time, the sole Discloser of his Councils, must render manifest.

Liege, May 5. On Friday last the Marquis de Fenelon arriv'd here; on Saturday he was at Court, and was received with particular Marks of Respect by his Serene Highness, our Prince and Bishop; and on Wednesday he continues his Journey to France. The Report that was spread, of his being seiz'd in the Austrian Netherlands, and having Papers of great Importance found upon him, was occasioned by the publishing a Letter at Brussels, written to him by M. de Theil, containing an Account of the Disgrace of M. Amelot. It is, however, true, that his Excellency complained he was denied a Passport for continuing his Journey thro' the Austrian Netherlands; and was escorted hither by two Troops of Dragoons. He appears to be very well satisfied with the Reception he met with at the Hague, and endeavours to make the World believe, that we shall very soon see a Negotiation begun for a general Peace, under the Mediation of the States General.

Hague, May 12. The Committee of the States of Holland and West Friesland have directed, that the Deduction constantly made of one fourth Part of their Appointments, for the four first Years, from all the Military Officers in the Pay of the States, shall not only be dispensed with, in regard to the Officers who serve in the Auxiliaries granted to the Queen of Hungary, but also that they shall be paid back what in Virtue of that Custom was deducted from their Appointments during the last Campaign. The Author of the French Hague Gazettee has thought fit to give Notice, that it is not in his Power to explain a certain Article from Wortemburg, in Relation to an Experiment made about electrifying Bodies; all he is able to say on the Subject is, that by electrifying is meant, communicating Electricity, or the Power of Attraction; and, as the Article was copied in this Paper, we judged it necessary to copy this Explanation, till such time as the learned Philosopher is pleased to inform us farther as to his own Meaning.

IRELAND.

Dublin, April 28. By Letters from the County of Wexford, we have a certain Account, that a large French Privateer lies off of Slade, near the Tower of Hook, and the River of Waterford.

The Right Hon. the Earl of Clanrickard, designing to give 150l. to be distributed in Premiums (for Encouragement of Husbandry) to the Tenants on his Lordship's Estate; has wrote to the Secretaries of the Dublin Society, to request that the Society will communicate to him what may be most proper to encourage, in order to raise a Spirit of Emulation, and Industry, in that Part of the Country where his Lordship's Estate lies.

On Wednesday last, the Independent Regiment of Horse, consisting of four Troops, composed of Gentlemen of Distinction and Fortune, and who voluntarily inlisted, cloathed, and mounted at their own Cost, made a very grand and agreeable Appearance in the Phenix Park, attended with as great a Number of Spectators of Rank, as hath been known on any Occasion; their own Servants, who waited on them, 'tis computed, were above an Hundred, with a great Number of Led Horses.

General Parker rode thro' the Ranks, and was greatly pleased with them. There was a most splended Entertainment prepared for the whole Corps at the Tholsel, by their Colonel, the Hon. John Ponsonby, Esq; to which their Excellencies the Lords Justices were pleased to accept of an Invitation; and the Right Hon. the Lord Mayor, the Commissioners of the Revenue, with a great Number of Gentlemen of Rank and Distinction dined with them also.

Yesterday a Woman was taken into Custody for cutting off her Child's Head; which Child she had brought to Town to be Christened the Day before.

Saturday last a Brewer's Servant, meeting a young Woman in New-street, with whom, 'tis said, he had kept Company some time before, on some Words, drew out a Hanger, and cut her a-cross the Belly in so cruel a Manner, that she died next Day; he is taken up, and committed to Newgate.

On the 7th Instant, Mr. David Elliott, Surveyor of Balenteir, seized there nineteen Hogsheads of Brandy, and four on the 12th Instant, in all 32 Hogsheads, which are arrived at the King's Stores in this Town. He has likewise seized the Sloop wherein the said Brandy was imported, she being under 25 Tons Burthen.

His Majesty's Letters are come over for promoting the Right Rev. Dr. Price, Bishop of Meath, to the Archiepiscopal See of Cashell; and for translating the Right Rev. Dr. Maule, Bishop of Dromore, to the Bishoprick of Meath.

We hear, that the Rev. Dr. Fletcher, Dean of Down, will be promoted to the See of Dromore.

EPILOGUE *to the Third Edition of* ALZIRA, *as spoken by Mrs.* Giffard, *at the Theatre Royal in* Drury-lane, April 30.

THE Fifth Act past, you'll think it strange, to find
My Scene of deep *Distress* is, yet, behind!
Task'd, for the *Epilogue*. I fear you'll *blame*
My *want*—of what you *love*, behind that Name.
But, for my Soul, I cant, from such *High Seeming*,
Descend, plum down at once,—to *Double-meaning*.
Judges! protect me—and pronounce it *fit*,
That *Solemn Sense*, shou'd end, with *Serious Wit*.
When the full Heart o'erflows, with *pleasing Pain*,
Why shou'd we *wish*, to make th' Impression vain?
Why, when two thinking Hours, have *fix'd* the Play,
Shou'd two light Moments, laugh it's *Use* away?
'Twere to proclaim your *Virtues* but a Jest,
Should they who *ridicule* 'em, please you best.
No.—at your Actors Hands, henceforth, *require*
Off'rings more *Apt*; and a *Sublimer* Fire!
Thoughts, that may *rivet*, not *efface*, the Scene:
Aids to the *Mind*: not Flatt'ries for the *Spleen*.
When Love, Hate, Pity,—Doubt, Hope, Grief, and Rage,
With clashing Infl'ence, *fire* the glowing Stage;
When the touch'd Heart, relenting into *Woe*,
From *Others* Fate, *does* its *own Dangers* know,
When soft'ning *Tenderness* unlocks the Mind,
And the *stretch'd* Bosom takes in *all Mankind*:
Sure! 'tis no *Time*, for the *bold* Hand of Wit
To *snatch back* Virtues, from the *plunder'd* Pit!
Still, be it *Ours*, to give you *Scenes, thus strong*,
And *Yours*, to cherish, and retain 'em, *long*!
Then, shall the *Stage* its General *Use* endear;
And ev'ry Virtue, gather *Firmness, here*.
Pow'r be, to *Pardon*,—Wealth to *Pity*, mov'd;
And *Truth* be taught the Art, to grow *belov'd*:
Women, to *charm*, with fast, and sure, Effect;
And *Men*, to *love 'em*, with a soft Respect.
'Till Wit, found useful, goes for more than *Name*,
And All who feel its Influence fan its Flame.

LONDON.

They write from Frankfort, that his Imperial Majesty is in perfect Health, and takes the Diversion of Hunting frequently in the County of Darmstadt.

His most Christian Majesty has been received with prodigious Magnificence at Lisle, and it is thought will proceed from thence to visit other important Fortresses in French Flanders.

According to a long Account, published by order of the Court of France, of the forcing the Retrenchments at Montalban, and taking Villa Franca, the Piedmontese are said to have lost upwards of 5000 Men, and to have imbarked only 2500 out of 14 Battalions.

The Relation printed at Geneva, and which was sent thither by the Court of Turin, asserts as positively, that the French have had 6500 killed upon the Spot; and that the Piedmontese have not lost in all above 3000 killed, wounded, taken Prisoners, and Deserters.

The Occaſion of M. de Court's Diſgrace, is ſaid to be a Letter he wrote to Cardinal Tencin, in which he charges all that is blameable in his Conduct, in the late Action in the Mediterranean, upon his Inſtructions, ſeveral Copies of which Letters he cauſed to be diſtributed at Madrid.

A Privateer of 30 Guns, and 100 Men, is fitted out at Biddeford; the Command of which is given to Capt. Vernam, late Maſter of the Britannia; who, in his Voyage from Leghorn, was attack'd, and Boarded, by a Spaniſh Privateer of great Force; whom he beat off, and carried 10 of the Spaniards into Biddeford.

Yeſterday came on the Election for a Clerk of the Pewterers Company, vacant by the Death of Mr. Scattergood; when Mr. Sparrow, Attorney at Law, was choſen.

The ſame Day being the firſt Sitting after Term, at Guildhall, the Judges of the Courts were entertained at Brewers Hall, by Sir William Calvert, Knt. one of the Sheriffs of this City.

Yeſterday their Graces the Duke and Ducheſs of Richmond ſet out from their Houſe in Privy Garden, for their Seat at Goodwood in Suſſex.

Laſt Tueſday General Pulteney and General Onſlow, kiſs'd his Majeſty's Hand, to take Leave of him, they being to embark very ſoon for Flanders.

Laſt Night the Corpſe of the Rev. Mr. Durand, was interred with great Funeral Pomp, in the Chapel in the Broad Way, Weſtminſter.

Yeſterday died, after a long Illneſs, at his Lodgings in Petty-France, Weſtminſter, Mr. Ketchlow, one of the Clerks belonging to his Majeſty's Exchequer.

In Yeſterday's Paper, Col. 3. *l.* 51. *for* John Ragg, *read* George Ragg.

Dr. **ROBERT EATON'S**
BALSAMICK STYPTICK,
Truly prepared and sold at the Doctor's late Dwelling House, now Mrs. DUTTON's, *in Salisbury-Court, Fleet-street.*

THIS Medicine restrains, in a most surprizing Manner, all internal as well as external Hemorrhages, *i. e.* it infallibly and quickly stops all dangerous Bleedings at the Nose or Gums, Spitting or vomiting Blood; also the immoderate Flux of the Hemorrhoids or Menses; bloody Urine or Stools, bleeding of large Wounds, &c. (if used according to the plain Directions given with it) as will appear by the Certificates of several Eminent Physicians, and in the large Account of this Medicine, written by the Doctor himself, and dedicated to the College of Physicians a little before his Death.

It keeps good for many Years, at Sea or on Shore, in all Climates; therefore must be universally useful

The Doctor not only obtaining his Majesty's Letters Patent for the sole Vending of this most Excellent Medicine; but also a Clause in a late Act of Parliament, exempting this Medicine from the Inspection of the Censors of the College of Physicians, to which all other Medicines are liable.

N. B. *The late Learned Dr.* CHEYNE, *in his Excellent Piece, entitled* The Natural Method of curing the Diseases of the Body, &c. *prefers* EATON'S STYPTICK *to* Helvetius's *and other Stypticks; and speaks of it as follows:* —'Every one 'knows the agglutinating Quality of sweet Blood, and I apprehend it is to this, that EATON'S *Styptick* owes its soft, 'mild, soldering Efficacy. — It is more mild, substantial 'and soft, than the mildest *Steel Preparations*, and more fit 'to patch a Hole, or glew up a Rupture, or to give a Balsam 'to the acrid and inflam'd flowing Blood of the Patient. *He* 'says, he is confirmed in this by a Physician of great Worth 'and Candor, who has great Opportunities of dealing in such 'Cases, by his *Practice in Midwifery.* See *p.* 182.'

Concerning **Gleets** *and* **Seminal Weaknesses** *of all Kinds.*

ALL judicious Physicians and Surgeons allow, that nothing is more difficult to cure than Stubborn Gleets and Seminal Weaknesses, whether occasion'd by too severe purging for Venereal Injuries, violent Strains, Pollutio sui, or any other Cause whatever; and that they are dangerous in their Consequences, as well as difficult to cure, is as certain, since they exceedingly weaken the Generative Faculties, infeeble the whole Nervous System, often bring on Hectick Heats, a Tabes Dorsalis, or Consumption of the Back, or an Atrophy or Nervous Consumption, which frequently terminate in Death itself.

All such, therefore, who have the Misfortune to be troubled with Old or Stubborn Gleets, Seminal Effusions, Involuntary Emissions, excessive Nocturnal Pollutions, or any Weakness of the Kidneys, Ureters, or Bladder, the Diabetis, or Incontinency of Urine, or Difficulty of holding their Water, would doubtless be glad to meet with a certain, safe, and speedy Cure, which they most assuredly may, by taking only a small Quantity of a transcendent BALSAMICK RESTRICTIVE ELECTUARY, now published for a general Good, after having for many Years been experienc'd never once to fail perfectly curing the most Stubborn Gleets known, in a few Days, without Difficulty or Trouble; as also all other Weaknesses of the Back, Reins, Seminal Vessels, and Urinary Passages, whichit almost instantly cures, bringing to rights and restoring all those Parts and Passages to their natural Tone and pristine Vigour, in a very extraordinary Manner, and by taking a few Doses of it only.

This transcendent BALSAMICK RESTRICTIVE ELECTUARY is neither disagreeable to take, nor occasions the least Disorder, but is a wonderful Restorative in all Weaknesses and Decay of Constitution of any Kind, and particularly strengthens the Back, Reins, Seminal and Urinary Vessels to an immense Degree, insomuch that in any Debility of them, one Dose of it does more than ten of any other Remedy yet found out; and all Persons fatigu'd with Gleets or Seminal Weaknesses of any Sort, or Weaknesses of the Urinary Vessels, who take it, will in three Days time find it so very effectual, that they will be most agreeably surprised at it.

When a Medicine will infallibly accomplish such a safe, speedy and perfect Cure of such difficult Maladies, as Gleets and Seminal Weaknesses are, as this Great Remedy truly and directly will, even after all other Means and Medicines have been tried in vain; too much cannot be said in it, and this, All who ever took it for any of the above-mention'd Purposes, have readily declared.

The Price is but 6 s. a Pot, altho' for its absolute Efficacy, one Pot alone being sufficient in most Cases to accomplish a Cure, worth ten times as much, and by the Author's special Appointment, is to be had only at Mr. Radford's Toy-shop, at the Rose and Crown against St. Clement's Church-Yard in the Strand, ready sealed up, with a Book of Instructions, which whomsoever carefully reads will perfectly know, when the Gleet or Weakness he is afflicted with, succeeds a Venereal Injury, whether all the Malignity of the Foul Disease is intirely eradicated or not.

Note, Ask only for a 6 s. Pot of Balsamick Electuary.

(Price Three Shillings and Six-pence.)

A Faithful Narrative of the Loss of his Majesty's Ship the Wager, of Commodore Anson's Squadron, in a late Voyage to the South Seas Containing an Account of the Conduct of the Officers and Crew, after having suffered Shipwreck on a Desolate Island, in the Lat. 47 South, Long. 81: 40 West; the Hardships they endured in the said Island or the Space of five Months; their bold Attempt for Liberty; their Passage through the Streights of Magellan; Account of their Manner of Living during the Voyage, on Seals, wild Horses, and Dogs; their safe Arrival at Brazil, after sailing One thousand Leagues in a Long-Boat. The Whole compiled by Persons concerned in the Fatal Expedition.

An Infallible and Instant Cure
For DEAFNESS, THICKNESS of HEARING, PAIN or NOISE *in the* EARS, &c. *by the true Chymical Specifick* DROPS.

WHICH infinitely excel all other Medicines ever offer'd to the Publick, or known in the World; for they directly cure Deafness, be it ever so bad, and all Thickness of Hearing and Noise in the Ears, almost at once, and that after all other Means have failed, and without Trouble, or the least Uneasiness whatever, as many Thousands have experienced.

They effectually remove all Pain occasion'd by Cold, strengthen the Tympanum or Drum of the Ear, free the auditory Nerve from Obstruction, and remedy all Defects of the Hearing Faculty, almost in an Instant, causing those to hear exceeding quick and well, who before were in a Manner totally Deaf.

Hundreds who were so very bad, as not able to hear a Person when best close by them, and therefore despaired of being ever relieved, have been quickly and perfectly cured by them to their great Joy and Admiration.

In a Word, nothing in Nature can come near them for the certain and almost immediate Cure of DEAFNESS proceeding from what Cause soever; but the great Esteem and Reputation they have justly gained for many Years past, have occasion'd (in which is the Cases) many Counterfeits to come abroad; beware therefore of such Impositions, these excellent and only true Specifick Drops being to be had only, by the Author's Appointment, of the Gentlewomen at the two Blue Posts in Haydon-Yard, in the Minories, at 3 s. 6 d. a Bottle, with Directions, and no where else in England.

The most Fam'd and long Experienced Chymical Drops For ASTHMA's and CONSUMPTIONS,
That have been Sold so many Years, and with such uncommon Success and Benefit to the Publick, by Mr. Parry and his Predecessors, in Boar's-Head-Court, Fleetstreet; *and, since Mr.* Parry's *Decease, have been and still are sold in* London *only by Mr.* Read *for* 3 s. 6 d. *a Vial, at his House in* White-Fryars. *(N.B. You are in just by the* Sun Tavern *in* Fleet-street, *and it's the great Corner House in* White-Fryars; JAMES READ, *in great Letters, is wrote over the Door.)*

They are a most Incomparable and never-failing Medicine for the immediate Relief and perfect Cure of the most confirmed ASTHMA *of the longest standing:*

And of all Sorts of CONSUMPTIONS, *even when so far advanced, as not to be cured by any other Medicine in the World.*

FOR their Virtues vastly exceed any Thing that ever was published, or even known in the whole World, in the Cure of the worst Asthma's and Consumptions of all Sorts, Coughs, Colds, Catarrhs, &c.

They instantly relieve the Patient in the most suffocating Fit of an Asthma, and make a perfect Cure in a very short Time; for they gently open the Breast, and immediately give Liberty of Breathing, without danger of taking Cold; they admirably allay the Tickling, which provokes frequent Coughing, and take off the uneasy Sensation of acrimonious Humours, cleanse the small Glands, relax the Fibres, and thereby enlarge the Capacities of the Vessels; thus they regulate and quickly Cure the most obstinate Asthma of the longest standing.

They speedily and to Admiration cure all Sorts of Consumptions, Ulcers of the Lungs, &c. removing all Obstructions of the Breast, and Lungs, Hoarseness, Wheezing, Soreness, Shortness of Breath, and all the usual Symptoms which attend the Beginnings of a Consumption; and, if taken in time, will infallibly prevent one when feared. They are also exceeding restorative and strengthening to Persons of weakly Constitutions, and have no other sensible Operation than to occasion a gentle Breathing in the Night.

And by Parity of Reasoning this most excellent Medicine (and is well known to be) the most sovereign Remedy in the World for those troublesome spending Coughs, which many are severely troubled with Night and Morning; and also for the Chin-Cough, and Hooping-Cough in Children, having cured Thousands; is so agreeable, and so few Drops to a Dose, that Children take them with Pleasure, and without any Confinement.

In short, these unparallel'd Chymical Drops are the most infallible Remedy that ever was known (and therefore we defy the faint Efforts of all Counterfeiters or Imitators) for the Ailments above-mentioned, and allowed to be so by the most Judicious amongst the Learned in Physick; and confirmed by the largest Experience in private Practice, and are made Publick for Common Good.

N. B. They are sent to many Parts of the World, particularly to his Majesty's Colonies in the West Indies, &c.

Good Allowance is given by the Dozen to sell them again. They will keep good many Years, well corked, in any Climate.
